

**Oligonucleotide Delivery:
*Biology, Engineering and Development***

October 7-11, 2012

**Schloss Hernstein
Hernstein, Austria**

Merck Poster Award Winners

1st Place - Targeted Liposomes for siRNA Delivery to Dendritic Cells *in vivo*

**Joseph Katakowski
Albert Einstein College of Medicine**

2nd Place - Development of Aptamer-Chimera Therapeutics Against Cell Surface Receptors Expressed by Leukemia and Adenocarcinomas

**Elizabeth D. Pratico
Duke University Medical Center**

3rd Place - A New Non-Base Chemical Modifier “Zen” Enhances Efficacy of Splice-Switching Oligonucleotides

**Suzan M. Hammond
University of Oxford**
